

Ticket Issuing Module VCM40A

## Introduction

This module is responsible for the sale, assignment and verification of one-way tickets and is one of the core modules of the vending machine. The handle of the module can be installed before or after installation. It is suitable for different equipment installation before and after maintenance.

## Product feature

- Able to issue Four different type of ticket in four magazine by using one CSC reader
- Using ladder design to reduce the module size.
- By combine the advantage of belt transport stability and high speed motor with Roller is able to dispense ticket stable and less ticket Jam.
- Modular design, easy for assembly and maintenance

## Specification

Issuing speed	<2s
Ticket magazine	Four magazine, each capacity $\geq 700$
Recycle bin	One bin, $\geq 50$
Operating temperature	0°C ~ 50°C 20%RH ~ 95%RH(non-condensing)
Storage temperature	-20°C ~ 60°C
Port	RS232
MCBF	$\geq 500,000$
MTTR	$\leq 15$ min
Power	DC24V
Consumption	50W
Dimension	150mm(W) * 570mm(D) * 880mm(H)
