Automatic Card Counting Machine T–C10T

Introduction

The card counting machine is designed to count card quantity in metro or highway industries. It's applicable for card thickness between 0.4 and 0.8mm, use roller for ticket transporting and high precision sensor for counting.

Production feature

- Applicable for card of metro or highway.
- Automatic ticket counter.
- Provide card counting function according to pre-configured quantity.
- With status self monitoring function, machine will stop if there's error during counting.
- Tiny style, easy for movement.

Specification

Ticket spec	0.4mm ~ 1mm
Accuracy	≥ 99. 9%
Ticket box	400 ~ 700 pcs
Recycle box	100 ~ 200 pcs
Speed	36000 per hour
Accumulation	999 pcs
Operating temperature	-10°C ~ 50°C, 20%RH ~ 95%RH (non-condensing)
MCBF	≥ 15, 000, 000
MTTR	≤ 30 min
Power	AC220V ±20%
Dimension	570mm(L) * 215mm(W) * 250mm(H)
